Kanlux MEBA LED IP54 is a series of surface-mounted luminaires that complements the popular family of Kanlux MEBA luminaires. We can choose from models with a length of 600mm and 1200mm. Kanlux MEBA LED IP54 means high luminous efficiency, durability of 50,000 hours and a 5-year warranty. An additional advantage of these luminaires is the IP54 level and two cable entries that allow for pass-through connection. The quick connector makes it easier to install the luminaire, and the lampshade and sides of the luminaire are made of polycarbonate and the body is made of steel sheet. These are other advantages of these luminaires.
